- Commerce With Math

WORK EXPERIENCE

Web Developer Intern

Daand Coders Private Limited

04/2025 - 01/2026

Delhi

Achievements/Tasks

- Project: Resolvvia (E-Commerce Platform) Developed e-commerce web pages using **ASP.NET Core MVC**, **C#**, and **Bootstrap**. Built product, customer, and order management modules. Integrated **SQL Server** and implemented Excel import functionality. Developed dashboards using **Chart.js**. Used **GitHub** for version control and testing.
- Project: IMS – Health & Vehicle Insurance Management Developed insurance management modules using **ASP.NET Core MVC** and **SQL Server**. Created forms with client-side and server-side validation. Implemented **CRUD** operations and designed database tables. Developed search, filter, and Excel export functionality. Tested, debugged, and maintained application features.
- Project: LegalSetu Developed responsive web pages using **ASP.NET Core MVC**, **C#**, and **Bootstrap**. Created reusable **Partial Views** for dynamic page rendering. Implemented **CRUD** operations with **SQL Server**. Developed validated forms and optimized application performance. Collaborated using **GitHub** and resolved application issues.

PERSONAL PROJECTS

Job And Internship Search Website

- **Technologies:** ASP.NET Core MVC, C#, SQL Server, Bootstrap Developed a responsive job portal using **ASP.NET Core MVC** and **SQL Server**. Implemented **user authentication** (login/logout) and **CRUD** operations for jobs. Enabled resume and company logo upload with secure database integration. Added job search and filtering functionality for a better user experience. Designed a responsive interface using **Bootstrap** and tested application features.

Netflix Clone

- **Movie Clone Website Technologies:** React.js, React Router, Tailwind CSS, HTML, JavaScript Developed a responsive movie browsing application using **React.js** and **Tailwind CSS**. Integrated a movie API to display real-time movie details, ratings, and posters. Implemented **React Router** for seamless navigation between Home, Search, and Movie Details pages. Optimized performance through React state management and component-based architecture. **Demo:** <https://youtu.be/MsnNWEruWU>

Refocus Website Clone

- **Refocus Website Clone Technologies:** React.js, Tailwind CSS, JavaScript, HTML, CSS, Motion (Framer Motion) Developed a responsive clone of the **Refocus** website using **React.js** and **Tailwind CSS**. Built reusable React components and implemented smooth animations using **Motion (Framer Motion)**. Created an interactive, modern UI with responsive layouts and seamless user experience. Improved front-end performance through component-based architecture and optimized rendering. **Demo:** <https://youtu.be/p2C3zRE0DsY>
